

Targha Vandal Resistant Audio Entry Panels

The vandal resistant Targha entry panel blends a particularly attractive design with a highly resilient structure. Special burglar-proof screws and the mechanical qualities of the buttons ensure that they are hardwearing and tamperproof.

The special technical features assure outdoor resistance and the materials used - stainless steel and 4mm thick polycarbonate - enhance Targha's tamperproof and knock-resistant properties.

Each panel has back box dimensions of 198mm high, 90mm wide and 51.5mm deep with the front plate measuring 207mm high, 99mm wide and 22mm deep.

Main features:

- Name covers made from clear, 4mm thick polycarbonate
- Entry panel front plates made from 2mm thick vandal resistant stainless steel
- Special burglar-proof screws - the special shape of the screw means the entry panel can only be opened with the special tool supplied for opening
- Secure and resilient steel buttons, hard wearing and tamperproof
- Targha entry panels have been designed to be installed either horizontally or vertically to suit any application
- Each panel is only 208mm high, 99mm wide and 22mm deep
- Reinforced recessed embedding box - this steel box features an anti-removal device, specially designed to assure unbeatable resistance against vandalism

Audio entry panel - HPC/*VR

- Available with 0 to 4 buttons and generously sized backlit 'information modules'
