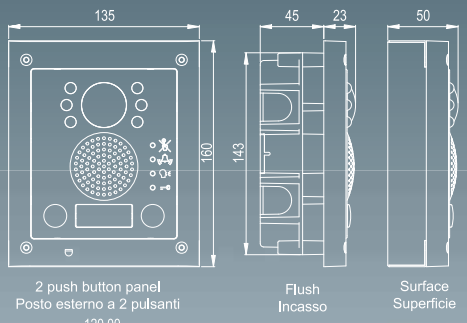
The widest range of audio and video kits

Our policy of continued improvement and new product development has lead to an expanded range of audio and video kits.
New arrivals to the Videx kit range include the remodelled and improved "8000" series where all modules and support frames can directly replace the 800 series. The "Two Wire" video kit, the 4000 Series Vandal Resistant audio and video kits, the market leading 4000 series GSM (mobile phone technology) audio kit which can expand up to ten call buttons (fifty when the new module version Art.4810N will be available).
The module is fully programmable using SMS text messaging or a PC and will redirect an unanswered call to a second telephone number. The introduction of a new front panel finish to the 4000 series in "High Brass" along with Silver and carbon effect finishes to the 3000 and 5000 audio and video range have also been introduced.
As a result of our many years of experience in the development of large scale door entry and access control systems, Videx have employed the latest microprocessor technology to the new speaker units used in the 4000 and 8000 range of video kits.
The use of this latest technology has lead to the introduction of many new features to the video kits which include multiple entrances (up to 4 doors), intercommunication (between videophones in the same apartment or a different apartment), timed privacy, door monitoring, push to exit facility, electric lock powered from the door panel, acoustic
reassurance tones and on the 4000 series visual signalling (DDA friendly) of the calls progress.
The 4000, 8000 and VR4K vandal resistant series audio and video kits are also available with standalone Videx codelock modules (3 codes / 3 relays), (Art.4800 for the 4000
kits, Art.8800 for the 8000 kits and Art.VR4KCM for the vandal resistant kits).
A Videx standalone proximity key reader (100 keys / 1 relay) is available for the 4000 series audio and video kits (Art.4850).
All kits are available in one or two button versions, mono or colour video, flush or surface mounting and in a wide range of finishes for both the facia and surround.
A videophone with memory is available for the 4000, 8000 and vandal resistant range of video kits (not available for the "two wire" video kit), the memory will store 128 images of
the callers in either the mono or colour versions with automatic time and date stamp. Pictures can be stored automatically on receiving a call or manually by pressing the
relevant button. Add "/MV" to the kit code to order a videophone with memory facility.
4000, 8000 and vandal resistant modular audio kits are available on request for up to 12 call buttons.
For systems larger than 12 buttons please contact Videx.

ESVK-1S



2 WIRE BUS VIDEOKIT ESVK SERIES

The ESVK videokits are a new range that require only 2 wires to carry video, audio and data. Developed from the VX2300 2 Wire digital video door entry system, the video kit uses the same devices (intercoms, videophones, videomonitors, distributors, exchangers, power supplies etc.) and offers the same facilities:

- *Facility to make multiple entrance systems using the exchanger Art.2301N;*
- *Facility to make systems with up to 7 users (requires Art.4333 firmware revision 2.0 or later);*
- *Facility to connect up to 4 intercoms/videophones in parallel using the distributor Art.317 (if videophones must be switched on at the same time, the additional videophones must be powered separately);*
- *Intercommunication between intercoms/videophones inside the same apartment or between intercoms/videophones inside different apartments (two way videokit);*
- *The use of the Art.2305 BUS relay for additional services;*
- *Disability Friendly - Acoustic & Visual signalling of the system status (busy, call in progress, conversation in progress and door open signalling);*
- *Recall (selective entrance recall on systems with 2 or more outdoor stations);*
- *Local call tone which is different from the external push button call tone;*
- *Videophone incorporates "Privacy" On/Off facility (with either latched or timed activation of privacy);*
- *Programmable Call, conversation and door opening times;*
- *Dry relay contacts for electric lock.*

ESVK-1

One button videokit comprising of:
1 Outdoor station *including speaker unit module Art.4333-1 comprising of high quality auto iris colour CCD camera with white light illumination LEDs plus one module flush mounting box with module support and hinge Art.4851. Standard finish: mirror stainless steel for the front plate and gun metal grey for the module support.*
1 Art.3381 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with 3 level adjustable volume. Complete with wall mount support Art.3980.*
1 Art.2321 *Specific power supply in a Type A 9 module DIN box.*
Packing: Cardboard 29x45x13 cm total weight 4,3 Kg.

CESVK-1

As ESVK-1 but with 3.5" colour TFT flat monitor Art.3481 and speaker unit with colour camera Art.4333-1Color. Packing: box 29x45x13cm total weight 3,9Kg.

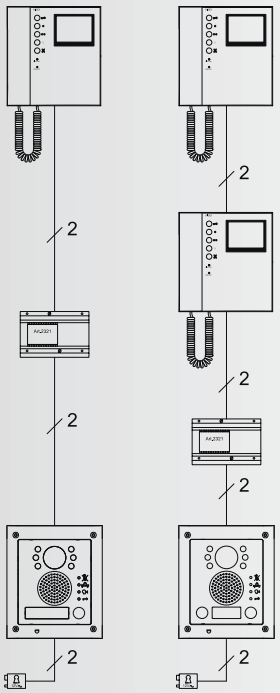
ESVK-2, CESVK-2

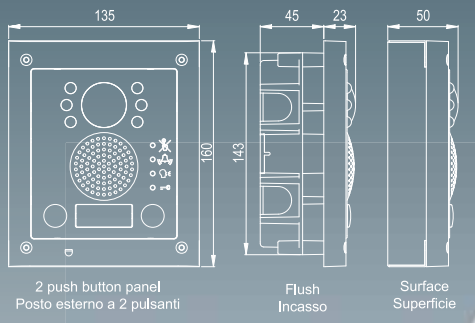
As ESVK-1, CESVK-1 but two call button version speaker unit Art.4333-1D or 4333-1DColor and 2 videophones Art.3381 or 3481.
Packing: Cardboard 26x29x25cm total weight 5,15Kg for B&W and 4,35Kg for color.

ESVK-1S, CESVK-1S, ESVK-2S, CESVK-2S

As the flush mount versions but with surface mounting box Art.4881.
Packing: the same as equivalent flush model with total weight of 4,6 Kg for one button version and 5,45 Kg for two button version.

The module support frame, the module front plate and the videophone are available in other finishes, ***see pictures 5, 6 and 7 on page 29*** *for available versions and additional suffix to use for orders.*





CESVK-1S/ECLIPSE

2 WIRE BUS VIDEOKIT CESVK/ECLIPSE SERIES

The ESVK videokits are a new range that require only 2 wires to carry video, audio and data. Developed from the VX2300 2 Wire digital video door entry system, the video kit uses the same devices (intercoms, videophones, videomonitors, distributors, exchangers, power supplies etc.) and offers the same facilities:

- *Facility to make multiple entrance systems using the exchanger Art.2301N;*
- *Facility to make systems with up to 7 users (requires Art.4333 firmware revision 2.0 or later);*
- *Facility to connect up to 4 intercoms/videophones in parallel using the distributor Art.317 (if videophones must be switched on at the same time, the additional videophones must be powered separately);*
- *Intercommunication between intercoms/videophones inside the same apartment or between intercoms/videophones inside different apartments (two way videokit);*
- *The use of the Art.2305 BUS relay for additional services;*
- *Disability Friendly - Acoustic & Visual signalling of the system status (busy, call in progress, conversation in progress and door open signalling);*
- *Recall (selective entrance recall on systems with 2 or more outdoor stations);*
- *Local call tone which is different from the external push button call tone;*
- *Videophone incorporates "Privacy" On/Off facility (with either latched or timed activation of privacy);*
- *Programmable Call, conversation and door opening times;*
- *Dry relay contacts for electric lock.*

CESVK-1/ECLIPSE

One button videokit comprising of:
1 Outdoor station *including speaker unit module Art.4333-1 comprising of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus one module flush mounting box with module support and hinge Art.4851. Standard finish: mirror stainless steel for the front plate and gun metal grey for the module support.*
1 Art.5488 *Intelligent Hands free video monitor using 3,5" full colour active matrix LCD monitor, with "door open/intercommunicating call", "answer/camera recall", "privacy on/off ", "bus relay activation" buttons all with LED indication and 2 additional service buttons. Controls: loud-speaker volume, call tone volume, brightness and hue. Programmable number of rings, privacy duration and intercommunication mode. Electronic call tone plus active low inputs for local bell and alarm.*
1 Art.2321 *Specific power supply in a Type A 9 module DIN box.*
Packing: Cardboard 29x45x13 cm total weight 4,3 Kg.

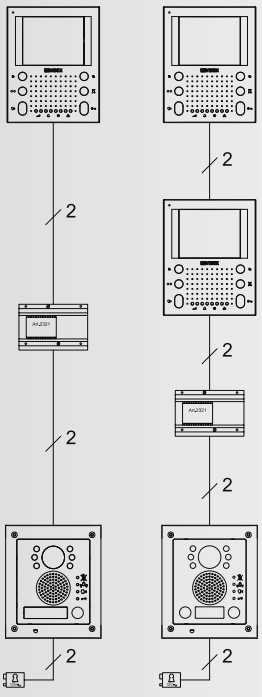
CESVK-2/ECLIPSE

As CESVK-1/ECLIPSE but two call button version speaker unit 4333-1DColor and 2 videophones Art.5488.
Packing: Cardboard 26x29x25cm total weight 5,15Kg for B&W and 4,35Kg for color.

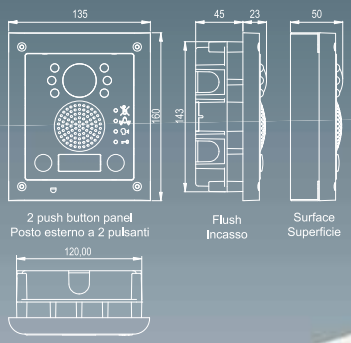
CESVK-1S/ECLIPSE, CESVK-2S/ECLIPSE

As the flush mount versions but with surface mounting box Art.4881.
Packing: the same as equivalent flush model with total weight of 4,6 Kg for one button version and 5,45 Kg for two button version.

The module support frame, the module front plate and the videophone are available in other finishes, ***see pictures 5, 6 and 8 on page 29*** *for available versions and additional suffix to use for orders.*



VK4K-S



VK4K SERIES VIDEOKIT

The VK4K series videokits offers a number of new operating features and allows greater flexibility for installation.

- *Up to 4 outdoor stations with 2 call push buttons calling 2 independent apartments;*
- *Up to 3 peripheral devices connected in parallel to each videophone (additional videophone, extension sounder, telephone handset etc.);*
- *Disability Friendly - Acoustic & Visual signalling of the system status (busy, call in progress, conversation in progress and door open signalling);*
- *Recall (selective entrance recall on systems with 2 or more outdoor stations);*
- *Intercommunication between internal videophones;*
- *Local call tone which is different from the external push button call tone;*
- *Videophone incorporates "Privacy" On/Off facility (with either latched or timed activation of privacy);*
- *Programmable Call, conversation and door opening times;*
- *Dry relay contacts for electric lock;*
- *Power supply can be connected to the videophone or the outdoor station.*

VK4K

One button videokit comprised of:
1 Outdoor station *including speaker unit module Art.4833-1 comprised of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus one module flush mounting box with module support and hinge Art.4851. Standard finishes: mirror stainless steel for the front plate and gun metal grey for the module support.*
1 Art.3356 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with 3 levels adjustable volume. Complete with wall mount support Art.3980.*
1 Art.850K *Power transformer in a Type A 5 module DIN box.*
Packing: box 43x27x10cm total weight 3.45 Kg.

CVK4K

As VK4K but with 3.5" colour TFT LCD monitor Art.3456 and speaker unit with colour camera Art.4833-1Color.

VK4K-2, CVK4K-2

As VK4K, CVK4K but two button version speaker unit Art.4833-1D, 4833-1DColor, 2 videophones Art.3356 or 3456, 2 power transformers and one video distributor Art.316.
Packing: Cardboard 26x26x28cm total weight 5.6 Kg.

VK4K-S, CVK4K-S, VK4K-2S, CVK4K-2S

As the flush mount versions but with surface mounting box Art.4881.
Packing: the same as relevant flush model with total weight 3.7 Kg for one button version and 5.85 Kg for two button version.

The module support frame, the module front plate and the videophone are available in other finishes, ***see pictures 5,6 and 7 on page 29*** *for available versions and additional suffix to use for orders.*

VKC4K SERIES VIDEOCODE KIT

With the addition of a VIDEX stand-alone digital codelock module Art.4800 added to the large number of features offered by the VK4K videokit. The user can open the door from the outside by entering an access code through the keypad.

VKC4K

One button videokit comprised of:

1 Outdoor station *including speaker unit module Art.4833-1 comprised of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus one codelock module Art.4800 (3 codes / 3 relay outputs) and a two modules flush mounting box with module support and hinge Art.4852. Standard finishes: mirror stainless steel for the front plate and gun metal grey for the module support.*

1 Art.3356 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with adjustable volume on 3 levels. Complete with wall mount support Art.3980.*

1 Art.850K *Power transformer in a Type A 5 module DIN box.*

Packing: briefcase 45x41x10cm Total weight 4.5 Kg.

CVKC4K

As VKC4K but with 3.5" colour TFT LCD monitor Art.3456 and speaker unit with colour camera Art.4833-1Color.

VKC4K-2, CVKC4K-2

As VKC4K, CVKC4K but two button version speaker unit Art.4833-1D, 4833-1DColor, 2 videophones Art.3356 or 3456, 2 power transformers and a video distributor Art.316.
Packing: Cardboard 23x53x16cm total weight 6.6 Kg.

VKC4K-S, CVKC4K-S, VKC4K-2S, CVKC4K-2S

As the flush mount versions but with surface mounting box Art.4882.
Packing: the same as relevant flush models with total weight 4.9 Kg for one button version and 7 Kg for two button version.

The module support frame, the module front plate and the videophone are available in other finishes, ***see pictures 5,6 and 7 on page 29*** *for available versions and additional suffix to use for orders.*

VKX4K SERIES VIDEPROX KIT

With the addition of a VIDEX stand-alone proximity reader module Art.4850. Adding proximity fob access control to the large number of features offered by the VK4K videokit. The user can open the door from the outside by simply presenting a card/fob to the external reader.

VKX4K

One button videokit comprised of:

1 Outdoor station *including speaker unit module Art.4833-1 comprised of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus one stand-alone proximity key reader Art.4850 (up to 100 keys / 1 relay output) and a two modules flush mounting box with module support and hinge Art.4852. Standard finishes: mirror stainless steel for the front plate and gun metal grey for the module support.*

1 Art.3356 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with adjustable volume on 3 levels. Complete with wall mount support Art.3980.*

1 Art.850K *Power transformer in a Type A 5 module DIN box.*

3 Art.955/C *Coded proximity key card format (tag Art.955/T available on request)*

Packing: briefcase 45x41x10cm Total weight 4.5 Kg.

CVKX4K

As VKX4K but with 3.5" colour TFT LCD monitor Art.3456 and speaker unit with colour camera Art.4833-1Color.

VKX4K-2, CVKX4K-2

As VKX4K, CVKX4K but with two button version speaker unit Art.4833-1D or 4833-1DColor, 2 videophones Art.3356 or 3456, 2 power transformers and a video distributor Art.316.
Packing: Cardboard 23x53x16cm total weight 6.6 Kg.

VKX4K-S, CVKX4K-S, VKX4K-2S, CVKX4K-2S

As the flush mount versions but with surface mounting box Art.4882.
Packing: the same as relevant flush models with total weight 4.9 Kg for one button version and 7 Kg for two button version.

The module support frame, the module front plate and the videophone are available in other finishes, ***see pictures 5,6 and 7 on page 29*** *for available versions and additional suffix to use for orders.*

VR4KV SERIES VIDEOKIT

The VR4KV is a new range of vandal resistant videokits. Developed from the popular VK4K videokit, the VR4KV offers a number of operating features and allows greater flexibility for installation.

- *Up to 4 outdoor stations (video or audio only) with 2 call push buttons calling 2 independent apartments;*
- *Up to 3 peripheral devices connected in parallel to each videophone (additional videophone, extension sounder, telephone handset etc.);*
- *Disable Friendly - Acoustic & Visual signalling of the system status (conversation in progress and door open signalling);*
- *Recall (selective entrance recall on systems with 2 or more outdoor stations);*
- *Intercommunication between internal videophones;*
- *Local call tone which is different from the external push button call tone;*
- *Videophone incorporates "Privacy" On/Off facility (with either latched or timed activation of privacy);*
- *Programmable Call, conversation and door opening times;*
- *Dry relay contacts for electric lock;*
- *Power supply can be connected to the videophone or the outdoor station.*

VR4KV-1

One button videokit comprising of:
1 Outdoor station *including speaker unit module Art.VR4KAMK-1 and camera module Art.VR4KCMM comprising of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus two module flush mounting box with module support and hinge Art.4852. Standard finish: brushed stainless steel for the front plate and gun metal grey for the module support.*
1 Art.3356 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with 3 level adjustable volume. Complete with wall mount support Art.3980.*
1 Art.850K *Power transformer in a Type A 5 module DIN box.*
Packing: Cardboard 12x45x43 cm total weight 5,9 Kg

CVR4KV-1

As VR4KV but with 3.5" colour TFT flat monitor Art.3456 and colour camera module Art.VR4KCMC.

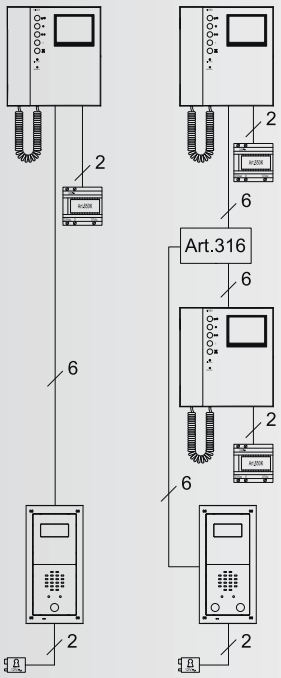
VR4KV-2, CVR4KV-2

As VR4KV-1, CVR4KV-1 but two call button version speaker unit Art.VR4KAMK-2, 2 videophones (Art.3356 or 3456), 2 power transformers Art.850K and one video distributor Art.316.
Packing: Cardboard 26x29x25 cm total weight 8.1 Kg.

VR4KV-S, CVR4KV-S, VR4KV-2S, CVR4KV-2S

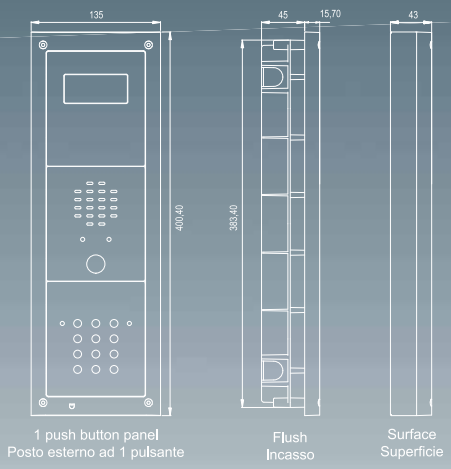
As the flush mount versions but with surface mounting box (Art.4882).
Packing: the same as relevant flush model with total weight 6.2 Kg for one button version and 8.4 Kg for two button version.

The module support frame and the videophone are available in other finishes, ***see pictures 6 and 7 on page 29*** *for available versions and additional suffix to use for orders.*



4000 Series Vandal Resistant Videocode kit

VR4KV-1S/CL



VR4KV/CL SERIES VIDEOKIT

With the addition of a VIDEX stand-alone digital codelock module Art.VR4KCLM added to the large number of features offered by the VR4KV videokit. The user can open the door from the outside by entering an access code through the keypad.

VR4KV-1/CL

One button videokit comprised of:
1 Outdoor station *including one speaker unit module Art.VR4KAMK-1, camera module Art.VR4KCMM comprised of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus one codelock module Art.VR4KCLM (2 codes / 2 relays) and a three modules flush mounting box with module support and hinge (Art.4853). Standard finish: brushed stainless steel for the front plate and gun metal grey for the module support.*
1 Art.3356 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with adjustable volume on 3 levels. Complete with wall mount support Art.3980.*
1 Art.850K *Power transformer in a Type A 5 module DIN box.*
Packing: Cardboard 54x17x24cm total weight 6.7 Kg.

CVR4KV-1/CL

As VR4KV-1/CL but with 3.5" colour TFT flat monitor Art.3456 and camera module with colour camera Art.VR4KCMC.

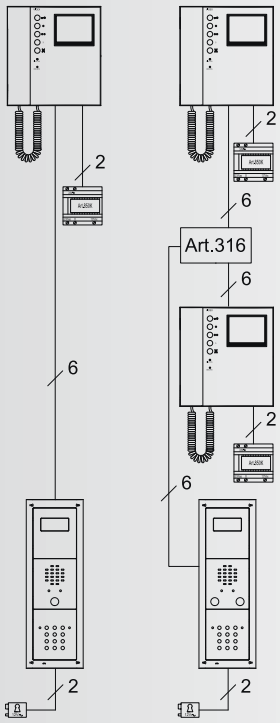
VR4KV-2/CL, CVR4KV-2/CL

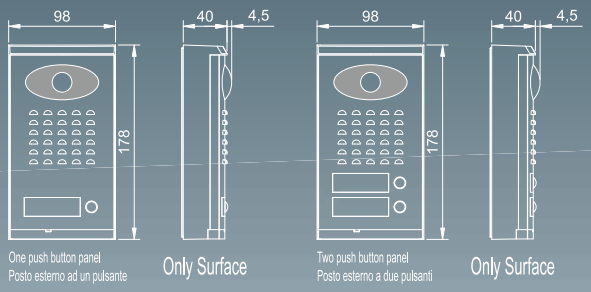
As VR4KV-1/CL, CVR4KV-1/CL but with two call button version speaker unit module Art.VR4KAMK-2, 2 videophones (Art.3356 or 3456), 2 power transformers Art.850K and one video distributor Art.316.
Packing: Cardboard 54x17x24 cm total weight 8.9 Kg.

VR4KV-1S/CL, CVR4KV-1S/CL, VR4KV-2S/CL, CVR4KV-2S/CL,

As the flush mount versions but with surface mounting box Art.4883.
Packing: the same as flush models but with total weight of 7.2 Kg for one button version and 9.4 Kg for two button version.

The module support frame and the videophone are available in other finishes, ***see pictures 6 and 7 on page 29*** *for available versions and additional suffix to use for orders.*





SMART SERIES VIDEOKIT- SMVK1

One button videokit comprised of:

1 Art.331K *One call button outdoor station (surface mount only) complete with high quality auto iris lens CCD B&W camera and infrared illumination LEDs. Horizontal & Vertical camera adjustment (10 degrees).*

1 Art.3351 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, 3 "service" push buttons and electronic call tone with adjustable volume on 3 levels.*
Complete with wall mount support Art.3980.

1 Art.850K *Power transformer in a Type A 5 module DIN box.*

Packing: box 57x26,5x7cm total weight 3.2Kg.

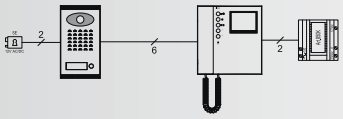
CSMVK1

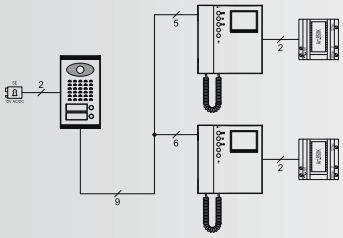
As SMVK1 but with 3.5" colour TFT LCD monitor Art.3451 and colour outdoor station Art.331KColour. Packing: as above

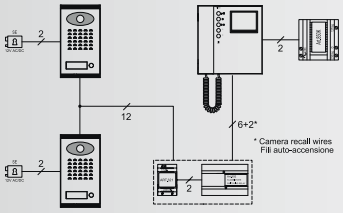
SMVK2, CSMVK2

As video kits above but two button version with 2 videophones, 2 power supplies and 2 button outdoor station Art.331K-2.
Packing: cardboard 28x26x24cm total weight 5 Kg

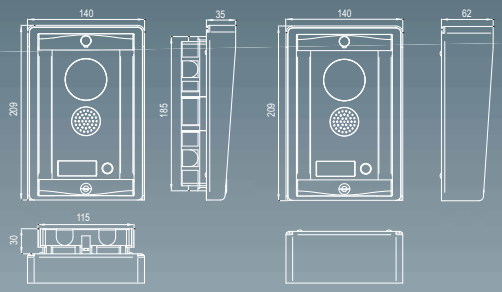
The door station front plate and the videophone are available in other finishes, ***see pictures 1 and 7 on pages 28 and 29*** *for available versions and additional suffix to use for orders.*







VK8K-S/BL



VK8K SERIES VIDEOKIT

The VK8K series videokits offers a number of new operating features and allows greater flexibility for installation.
- *Up to 4 outdoor stations with 2 call push buttons calling 2 independent apartments;*
- *Up to 3 peripheral devices connected in parallel to each videophone (additional videophone, extension sounder, telephone handset etc.);*
- *Recall (selective entrance recall on systems with 2 or more outdoor stations);*
- *Intercommunication between internal videophones;*
- *Local call tone which is different from the external push button call tone;*
- *Videophone incorporates "Privacy" On/Off facility (with either latched or timed activation of privacy);*
- *Programmable Call, conversation and door opening times;*
- *Dry relay contacts for electric lock;*
- *Power supply can be connected to the videophone or the outdoor station.*

VK8K

One button videokit comprised of:
1 Outdoor station *including speaker unit module Art.8833-1 comprised of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus 1.5 module flush mounting box with module support and hinge Art.8855 plus a rainshield Art.8875. Standard finishes: mirror stainless steel for the front plate and aluminium for the module support.*
1 Art.3356 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with 3 levels adjustable volume. Complete with wall mount support Art.3980.*
1 Art.850K *Power transformer in a Type A 5 module DIN box.*
Packing: box 57x26,6x7cm total weight 3.9Kg.

CVK8K

As VK8K but with 3.5" colour TFT LCD monitor Art.3456 and speaker unit with colour camera Art.8833-1Color.

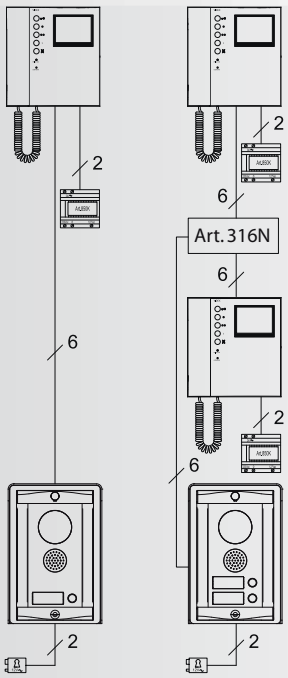
VK8K-2, CVK8K-2

As VK8K, CVK8K but two button version speaker unit Art.8833-2, 8833-2Color, 2 videophones Art.3356 or 3456, 2 power transformers and one video distributor Art.316N.
Packing: Cardboard 28x26x23cm total weight 7 Kg.

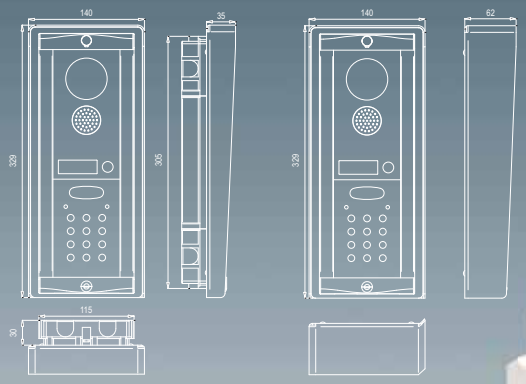
VK8K-S, CVK8K-S, VK8K-2S, CVK8K-2S

As the flush mount versions but with surface mounting box Art.8885.
Packing: the same as relevant flush model with total weight 4.5 Kg for one button version and 7.5 Kg for two button version.

The module support, the surface mounting box, the module front plate and the videophone are available in other finishes, ***see pictures 2 and 7 on pages 28 and 29*** *for available versions and additional suffix to use for orders.*



8000 Series Videocode Kit



VKC8K SERIES VIDEOCODE KIT

With the addition of a VIDEX stand-alone digital codelock module Art.8800 added to the large number of features offered by the VK8K videokit. The user can open the door from the outside by entering an access code through the keypad.

VKC8K

One button videokit comprised of:

1 Outdoor station *including speaker unit module Art.8833-1 comprised of high quality auto iris lens CCD B&W camera and infrared illumination LEDs plus one codelock module Art.8800 (2 codes / 2 relay outputs) and a 2.5 modules flush mounting box with module support and hinge Art.8857 plus a rainshield Art.8877. Standard finishes: mirror stainless steel for the front plate and aluminium for the module support.*

1 Art.3356 *3000 Series Videophone with 4" B&W flat screen monitor, "door open" and "camera recall" push buttons, "Privacy on" button, 2 "service" push buttons, "door open" and "privacy on" LEDs and electronic call tone with adjustable volume on 3 levels. Complete with wall mount support Art.3980.*

1 Art.850K *Power transformer in a Type A 5 module DIN box.*

Packing: briefcase 45x41x10 cm total weight 4.5Kg.

CVKC8K

As VKC8K but with 3.5" colour TFT LCD monitor Art.3456 and speaker unit with colour camera Art.8833-1Color.

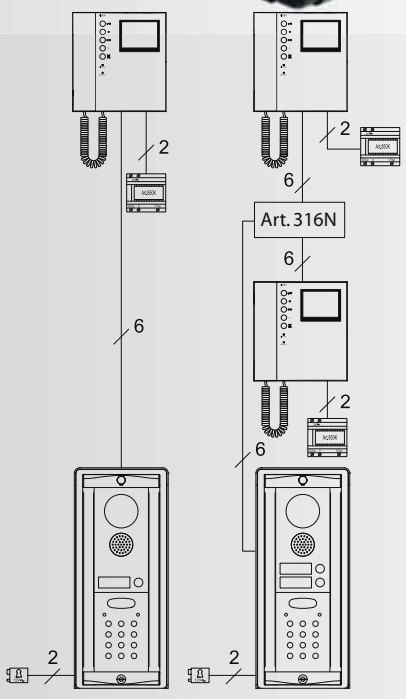
VKC8K-2, CVKC8K-2

As VKC8K, CVKC8K but two button version speaker unit Art.8833-2, 8833-2Color, 2 videophones Art.3356 or 3456, 2 power transformers and a video distributor Art.316N.
Packing: Cardboard 35x26x23cm total weight 8 Kg.

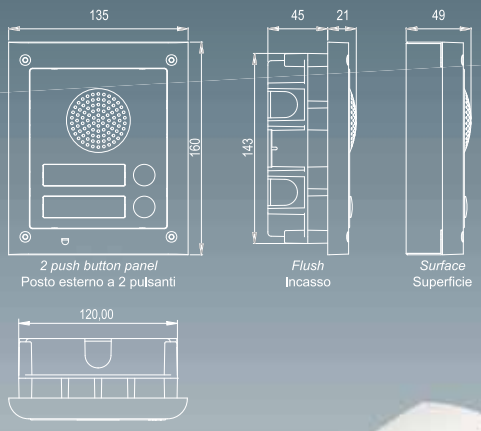
VKC8K-S, CVKC8K-S, VKC8K-2S, CVKC8K-2S

As the flush mount versions but with surface mounting box Art.8887.
Packing: the same as relevant flush models with total weight 5 Kg for one button version and 8.5 Kg for two button version.

The module support, the surface mounting box, the module front plate and the videophone are available in other finishes, ***see pictures 2 and 7 on pages 28 and 29*** *for available versions and additional suffix to use for orders.*



4K-1S



4K SERIES AUDIOKIT

The 4000 Series audio door entry kits benefit from advanced features such as electronic call tone generation and lock release relay included within the door panel. This reduces the cable requirements between the handset(s) and the door panel to only 4 ("3+1") connections. For this reason larger cable distances using small cores sizes can be achieved between door panel and telephones.

4K-1

One button door entry kit comprised of:
1 Outdoor station *including a one call button speaker unit Art.4836-1 and a flush mounting box with module support and hinge Art.4851.*
Standard finishes: mirror stainless steel for the front plate and gun metal grey for the module support.

1 Art.3011 *3000 Series Smart Line wall mount telephone with "door open" push button and electronic call tone with 3 level adjustable volume control.*

1 Art.321 *Power Supply in a type A 3 module DIN box.*
Packing: box 30.5x29x7cm total weight 2 Kg.

4K-2

As 4K-1 but two button version with 2 intercoms and 2 call push button speaker unit Art.4836-2.
Packing: box 41x39x7cm total weight 2.3 Kg.

4K-1S, 4K-2S

As door entry kits above but with surface mounting box Art.4881.
Packing: the same as the flush versions but with a total weight of 2.3 Kg for one button version and 2.6 Kg for two button version.

The module support frame and the module front plate are available in other finishes, ***see pictures 5 and 6 on page 29*** *for available versions and additional suffix to use for orders.*

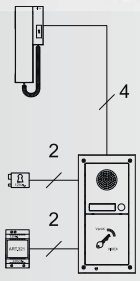
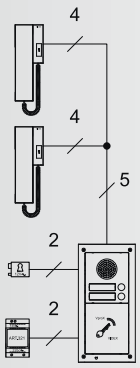
Packing: briefcase 40x32x9cm total weight Kg.3.2

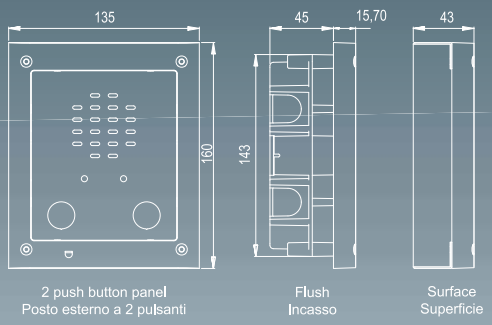
XK4K-1S, XK4K-2S

As kits above but with surface mounting box Art.4882.
Packing: the same as the relevant flush mount version but with total weight 3.3 Kg for one button version and 3.6 Kg for 2 button version.

The module support frame and the module front plate are available in other finishes, ***see pictures 5 and 6 on page 29*** *for available versions and additional suffix to use for orders.*







VR4K-1S

VR4K SERIES VANDAL RESISTANT AUDIO KIT

VR4K is a new range of vandal resistant audio kits, developed from the popular 4K series.
The face plate is manufactured from 2.5 mm stainless steel and incorporates IP68 stainless steel push buttons.
The face plate is housed in the 4000 series front support frame, which gives the unit substantial strength.
Disable Friendly, with acoustic and visual signalling of the system status (conversation in progress and door open indication)
Reassurance tones are standard.
Multiple entrances (up to 4) without the need of the 2 entrance exchange unit.
Dry contact relay for lock release connection.

VR4K-1

One button flush door entry kit comprising of:

1 Outdoor station *including one call button speaker unit module Art.VR4KAM-1 and a flush mounting box with module support and hinge Art.4851. Standard finish: brushed stainless steel for the front plate and gun metal grey for the module support.*

1 Art.3111 *3000 Series wall mount telephone with "door open" and "service" push buttons and electronic call tone with 3 level adjustable volume control.*

1 Art.520M *Power Supply in a type A 8 module DIN box.*

Packing: Cardboard 24x26x7 cm total weight 2.1 Kg.

VR4K-2

As VR4K-1 but two call button version with 2 telephones and a 2 call button speaker unit Art.VR4KAM-2.
Packing: Cardboard 31x28x7 cm total weight 2.45 Kg.

VR4K-1S, VR4K-2S

As door entry kits above but with surface mounting box Art.4881.
Packing: the same as the flush versions but with a total weight of 2.4 Kg for one button version and 2.8 Kg for two button version.

The module support frames are available in other finishes, ***see picture 6 on page 29*** *for available versions and additional suffix to use for ordering.*

Surface
Superficie

4K/GSM SERIES AUDIOKIT

This range, of the 4000 series have been designed to operate using mobile phone technology with minimal installation time required to have an operational system. The system operates as follows:
• The visitor presses a button on the door panel to initiate a call.
• The door panel then dials the telephone number stored using the GSM network.
• If the call is answered, speech and services will be available such as door/gate release.
The Kit enables a call to be made from an entry point (door, gate, remote site or help point) to any telephone number (mobile or land line). The door panel is available with 1 or 2 call buttons (Expandable up to 10) each able to call two pre programmed telephone numbers (if the first is busy or not answered, the call will divert to the second). Programming of telephone numbers and additional features is carried out via text messaging or dial in. Additional access control features are also available, allowing a number of callers to open the gate/door simply by dialling the telephone number of the intercom panel (the intercom will not answer these calls but will activate the relay output at no charge to the caller).
A SIM card is required for this product (NOT SUPPLIED). It is recommended to choose the SIM card which has best coverage for the area in which the intercom panel will be installed. Both contract and "Pay as you go" SIM cards can be used, if using "Pay as you go" we would recommend setting up an automatic top up to avoid loosing the use of the intercom panel through running short of credit. Features of the system include a dry contact relay output, open collector auxiliary output, push to exit input and switched 0V auxiliary input.

4K-1/GSM

1 Outdoor station *including a one call button gsm speaker unit Art.4810-1 and a flush mounting box with module support and hinge Art.4851. Standard finishes: mirror stainless steel for the front plate and gun metal grey for the module support.*

SMART SERIES AUDIOKIT

The circuitry of the outdoor stations provided with these kits, has a built-in lock relay to enable the electric lock. This reduces the cable requirements to only 4 wires ("3+1") between the outdoor station and the intercom and to use cables with reduced size over long distances.

SMK-1

One button door entry kit comprised of:

1 Art.336E-1 *One call button flush mounting outdoor station complete.*

1 Art.3011 *3000 Series Smart Line wall mount telephone with "door open" push button and electronic call tone with adjustable volume on 3 levels.*

1 Art.321 *Power Supply in a type A 3 module DIN box.*

Packing: box 30.5x29x7cm total weight 1.3 Kg.

SMK-2

As the SMK-1 kit but with 2 call push buttons outdoor station Art.336E-2 and 2 intercoms. Packing: box 41x39x7cm total weight 1.7 Kg.

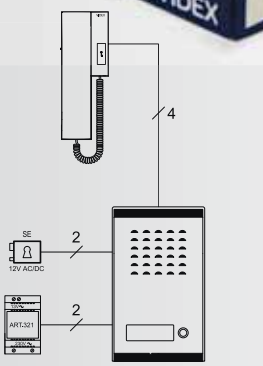
SMK-1S, SMK-2S

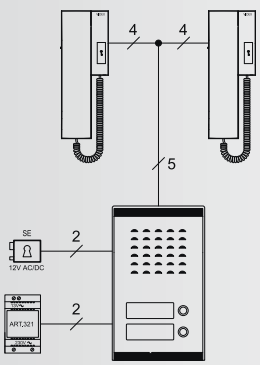
As the kits above but with surface mount outdoor station Art.336E-1S or 336E-2S.
Packing: the same as above but total weight 1.5 Kg for one family version and 1.9 Kg for two button version.

For flush mounting outdoor station an optional rainshield Art.371 and surface mounting box Art.381 are available.

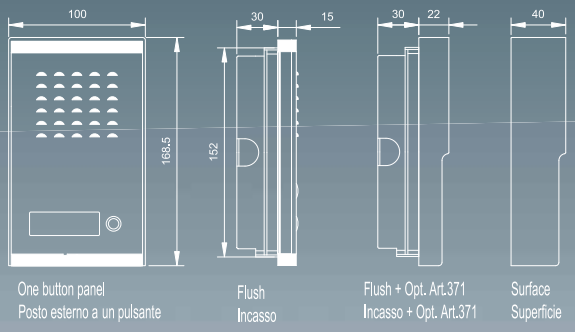
The outdoor station front plate and the optional rain shield are available in 3 different finishes: add /A to the product code for aluminium finish, /G for gold and /W for white.

For colours ***see picture 4 on page 28***





ESK-1S/A



SMART SERIES "TWO WIRE" KIT

This is a complete door entry system using only two wires between the door station and the indoor unit plus the facility for a second handset to be wired in parallel and an extension sounder. The intercom provided has a service push button.

ESK-1

One button door entry kit comprised of:

1 Art.332 *One call button flush mount outdoor station.*

1 Art.3151 *3000 Series wall mount telephone with "door open" push button, "service" push button and electronic call tone with adjustable volume on 3 levels.*

1 Art.321 *Power Supply in a type A 3 module DIN box.*

Packing: box 30.5x29x7cm total weight 1.3 Kg.

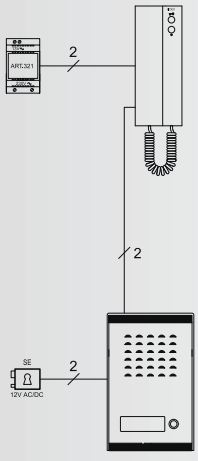
ESK-1S

As door entry kit above but with surface mounting outdoor station Art.332S.
Packing: box 30.5x29x7cm total weight 1.5 Kg.

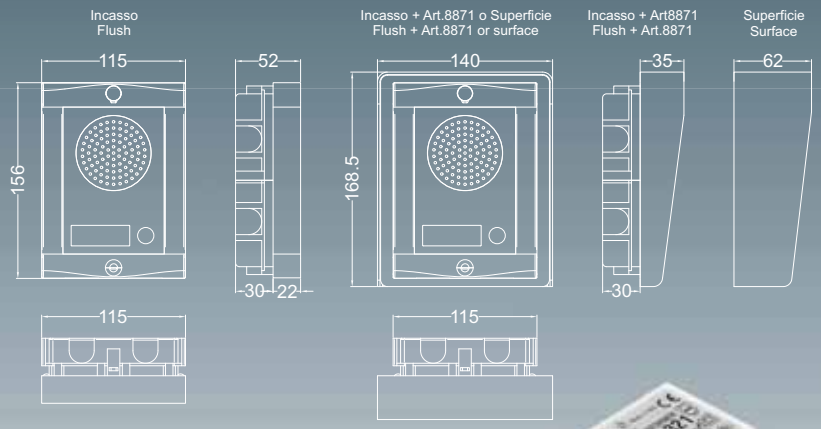
For flush mounting outdoor station an optional rainshield Art.371 and surface mounting box Art.381 are available.

The outdoor station front plate and the optional rain shield are available in 3 different finishes: add /A to the product code for aluminium finish, /G for gold and /W for white.

For colours ***see pict. 4 on page 28***.



8000 Series Audiokit



8000 SERIES AUDIOKIT

The circuitry of the outdoor stations provided with these kits, has a built-in lock relay to enable the electric lock. This reduces the cable requirements to only 4 ("3+1") between the outdoor station and the intercom. This reduced cable requirement allows longer cable runs and reduced cable sizes to be used between the two units.

8K-1
One button door entry kit comprised of:

1 Outdoor station *including a one call button speaker unit Art.8836M-1, flush mounting box with module support and hinge Art.8851 plus covering frame Art.8861. Standard finishes: mirror stainless steel for the front plate and aluminium for the module support.*

1 Art.3011 *3000 Series Smart Line wall mount telephone with "door open" push button and electronic call tone with adjustable volume on 3 levels.*

1 Art.321 *Power Supply in a type A 3 module DIN box.*

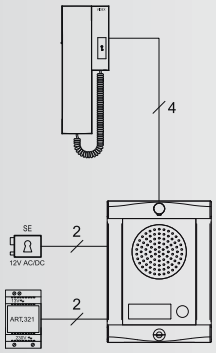
Packing: box 30.5x29x7cm total weight 1.4 Kg.

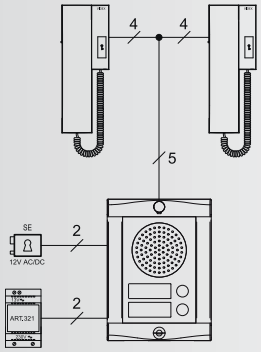
8K-2
As 8K-1 but two button version with 2 intercoms and 2 call push button speaker unit Art.8836M-2. Packing: box 41x39x7cm total weight 1.75 Kg.

8K-1S, 8K-2S
As above door entry kits but with surface mounting box Art.8881.
Packing: the same as the flush version but with a total weight of 1.85 Kg for one button version and 2.2 Kg for two button version.

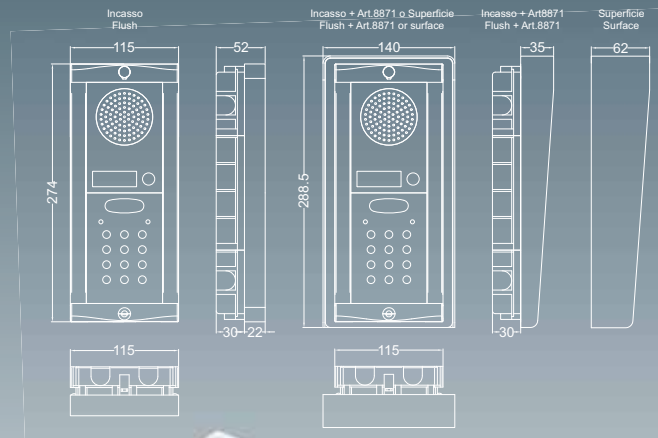
For flush mounting outdoor station, a rainshield Art.8871 is available to install instead of the covering frame.

The module support, the module front plate and the rainshield are available in other finishes, ***see pictures 3 on page 28*** *for available versions and additional suffix to use for orders.*





8000 Series Digiphone Kit



8000 SERIES DIGIPHONE KIT

As 8K1 audio kit with the addition of a codelock module Art.8800.

DK8K-1

One button door entry kit comprised of:

1 Outdoor station *including a one button speaker module Art.8836M-1, a digital codelock (Art.8800 Codelock module, 2 codes / 2 relays outputs with illumination panel),flush mounting box with module support and hinge Art.8852 plus covering frame Art.8862. Standard finishes: mirror stainless steel for the front plate and aluminium for the module support.*

1 Art.3011 *3000 Series Smart Line wall mount telephone with "door open" push button and electronic call tone with adjustable volume on 3 levels.*

1 Art.321 *Power Supply in a type A 3 module DIN box.*

Packing: box 30.5x29x7cm total weight 2.1 Kg.

DK8K-2

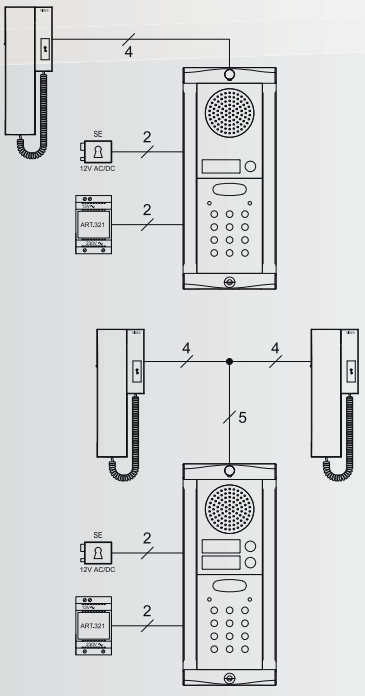
As DK8K-1 but two button version with 2 call button speaker unit Art.8836M-2 and 2 intercoms.
Packing: briefcase 40x32x9cm total weight 2.8 Kg.

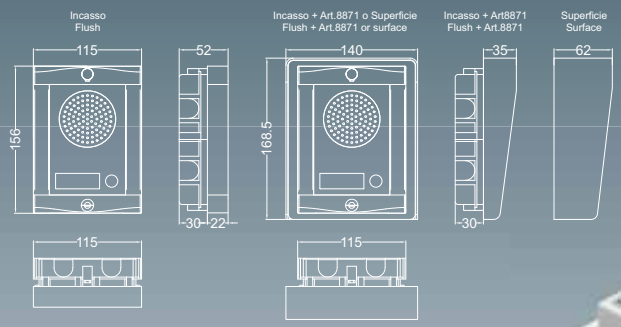
DK8K-1S, DK8K-2S

As kits above but with surface mounting box Art.8882.
Packing: the same as the relevant flush mount version but with total weight 2.6 Kg for one button version and 3.3 Kg for 2 button version.

For flush mounting outdoor station, an option rainshield Art.8872 is available instead of the covering frame.

The module support, the module front plate and the rainshield are available in other finishes, ***see picture 3 on page 28*** *for available versions and additional suffix to use for orders*





IK8K-1S/A

INTERKIT

Interkits, are available in one button and two button versions, the interkit forms a small intercommunicating system between 2 intercoms with an external call unit. The intercommunicating call is identified with an electronic tone and the external call unit with a buzzer. This feature provides an ideal solution for houses or offices which are on 2 different floors.

IK8K-1

One button door entry kit comprised of:

1 Outdoor station *including a one call button speaker unit Art.8836I-1, flush mounting box with module support and hinge Art.8851 plus covering frame Art.8861. Standard finishes: mirror stainless steel for the front plate and aluminium for the module support.*

2 Art.3002 *3000 series Smart line telephone with "Door open" and "Service" push buttons, buzzer call and electronic call tone with adjustable volume on 3 levels.*

1 Art.321 *Power Supply in a type A 3 module DIN box.*

Packing: briefcase 40x32x9cm total weight 2.1 Kg.

IK8K-2

As IK8K-1 but two button version with 2 call push button speaker unit Art.8836I-2. The 2 intercoms are communicating but external calls are different for each phone.
Packing: as above total weight 2.1 Kg.

IK8K-1S, IK8K-2S

As door entry kits above but with surface mounting outdoor station.
Packing: as above total weight 2.2 Kg.

For flush mounting outdoor station, a rainshield Art.8871 is available to install instead of the covering frame.

The module support, the module front plate and the rainshield are available in other finishes, ***see picture 3 on page 28*** *for available versions and additional suffix to use for orders.*

1 Art.321 *Power Supply in a type A 3 module DIN box.*
Packing: box 24.5x25.5x6.5cm total weight 1.3 Kg.

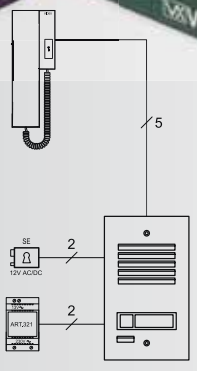
MK-2

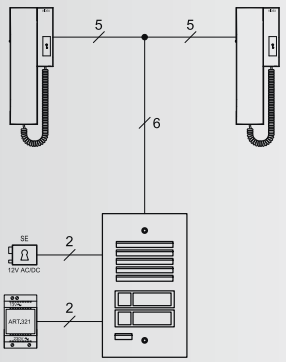
As MK-1 but two button version with 2 intercoms and 2 call push button outdoor station Art.DU-2A.
Packing: box 30.5x29x7cm total weight 1.6 Kg.

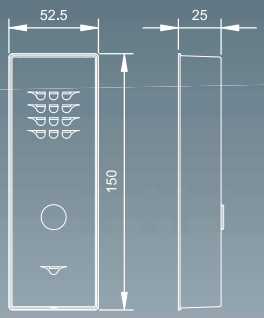
Optionally a surface mount box for the outdoor station Art.SMB-M is available.

*The outdoor station front plate and the surface mount box are available in 3 different finishes: add /**A** to the product code for aluminium finish, /**G** for gold and /**W** for white.*

For colours ***see pict. 4 on page 28****.*







SLIM KIT

The SLIM KIT uses a completely new surface mounting outdoor station. The front panel, is of a slim design. The panel is manufactured from one piece of die-cast aluminium alloy which gives substantial strength to the outdoor station.
The outdoor station circuitry has a built-in lock relay, this reduces the cable requirements to only 4 wires ("3+1") between the outdoor station and the intercom. The reduced cable requirement allows longer cable runs and reduced cable sizes to be used between the two units. The outdoor station is provided with a 3mt length cable.

SLK
